Darling's husband is not satisfying her sexual needs. She takes him to see a guru who proposes a new kind of therapy; cuckold therapy. Darling fucks her husband in the ass to teach him what a good fucking feels like before she rides the guru's big cock, making her husband watch and taste her cum off another man's cock. She cums and cums until she's satisfied, then holds her husband's face to receive her guru's load.
