Siouxsie is bound kneeling in a latex box tie arm binder, latex posture collar, latex head harness, leather straps, thigh high stockings and high heels. She mentions breast bondage scares her, so we fully exploit her fears and aggressively try to push her off balance and out of her comfort zone. Breast and genital caning are quickly followed by clothespins all over her torso. A blindfold is added and the clothespins are single tailed off until she can't take it any more. To reward her pain journey, the vibrator and punishing hand fucking enter the picture. We find out that she is a squirter...
