Wearing all latex, head to toe. She is tall, lean and exotic, so she is displayed on a lit examination table. Her pussy gets vibed until she cannot take any more. Clamps are applied to her nipples and the Wartenberg wheel torments her as she fills the room with screams. Next she is bound in our dentist chair. Meticulously, pegs are added to her soft skin, all which have their own line. So that they all will come off at once, rather than like a zipper, but first she is tormented with electricity. Finally, we have her ass on display. She is held in place by a custom steel device and an ass hook is shoved in her tight ass and tied to her head.
