Serena is paired up with Orlando for her toughest shoot ever. She is tethered to a pole and is instructed to strip while enduring a nasty lashing from a dragon tongue. Serena's body is then manipulated into a doggy position and an ass hook is inserted as the suffering continues. Orlando continues the assault on her flesh, then to top it off, he covers this whore's body with hot wax. Serena questions her desire to continue, but pushes on, only to have her body quit on her. Serena is to be commended for being such a tough girl. She gave until her body and mind gave up on her will to finish. She is one tough cookie, and here is the proof.
