Dahlia is served up to The Pope and Orlando for a 3 hour live shoot. First she is put in a device that has her back bent in such a way that most could not handle. She too, eventually gives in and has to be let down to make it through the rest of the scene. Next Dahlia is put in a extreme stress position with her arms and legs bound with metal straps. she is impaled in her pussy with a large dildo to prevent her from easing the stress on her legs. In the final scene, Dahlia is spread wide in a manipulation of a pile driver. Again her body falls under the assault of these two sadists and we can witness her total destruction reaching its climax.
