Fear is closely related to the emotion anxiety, which occurs when threats are perceived to be uncontrollable or unavoidable. This holds true as we watch Holly bound in the scavenger's daughter while electricity is introduced. Sensory deprivation is the deliberate reduction or removal of stimuli from one or more senses. Take away her sight, and she has to depend on her other senses. Immobilized is to deprive of the capacity for mobilization. Every part of Holly's body is locked under strict steel and then wrapped to reduce any minor movement she may still have had. The pain continues along with brutal ass and pussy orgasm until she is unable to continue.
