Cherie is a fucking sinner, and it's time for her to pay for her indiscretions. She is put into our brand new prayer pew, designed by our engineer, Lucas. Her fingers are trapped, holding her arms in place and she is made to kneel. Next she's pinned to the wall in an inverted spread eagle. She's locked down with cold, hard steel, and is completely helpless. Now Cherie is fucked, as she is pulled into a brutal hogtie with chains and leather. Her waist is locked to the box with a chain, ensuring that she is stretched as much as possible before she is fucked hard.
