It's not often that we get a slave like Parker London that walks through the door. There is no denying that he's a beautiful piece of man meat that all the Bitches (even Madeline) had to take for a ride. We passed this hot piece of guy flesh around and used him only for our pleasure and I'm sad to say that Parker has decided to move on from his pornographic roots and retire from porn! To commemorate his exit we want to welcome world famous ass queen Phoenix Fucking Marie to Divine Bitches! Phoenix is sex on two legs and was made for whipping men into shape then destroying them with her perfect ass! Parker and Phoenix steam up the screen making their connection undeniable! She teases him with her perfect assets, OTK spans his ass, smothers him, demands ass licking, pegs his ass like only Phoenix Marie can then takes one final ride on his cock for her pleasure. Parker's last day wouldn't be whole unless we edged him to orgasm until his dick can't help but explode under Phoenix's skilled fingers and he has one final meal of filth served up by a goddess!
