We have a fresh face today by the name of Winnie Rider, a blonde and all natural pain slut that is a little bratty and loves to be punished for it. With every increase in suffering this slut's pussy gets wetter. She can't help herself, she's just wired that way. Her cunt is the target today. It will receive grueling torment that would have most girls screaming their safe word, but not Winnie. She gets off on having her cunt punished and abused. After a grueling scene where all we do is try to destroy her cunt, we throw her on the sybian to the final level of destruction to her cunt.
