The Domina Files volume 68 La Clinica II Paderborn - Germany Running Time: 50 mins

€ 9,95

On our way to the EroFame fair in 2011 in Hannover we stopped over at La Clinica as Lady Natascha had contacted us to let us know she had acquired some new tools and was desperate to show us her new toys. The first time we filmed with her we were impressed (see for yourself in Domina Files volume 25), this time we were flabbergasted. The willing slave never had a change and she took him to the limit in a mixed rubber and medical treatment with lots of bondage, masks, CBT and finished it off with a huge strap-on to show the slave where his place was! Complete with interview segments, an impression of the dungeon and behind the scenes footage of the historical city of Paderborn, Germany.
