€ 9,95

The dungeon of this stunning, tall and beautiful dark Mistress is situated in the outskirts of industry town of Liege in Belgium – located next to a printer with plenty of parking space, the print presses next door dampen all sounds made by submissive visitors to this unique studio. Though there are multiple rooms, there is some much equipment and so many toys that it seems like one huge BDSM play ground. In this DVD Maîtresse Xawana submits two willing slaves to an extended session, including bondage, CBT, nipple clamps, wax and no whips are spared. We see a stern mistress who really enjoys playing with her slaves and that splashes off the screen in this action packed DVD. Complete with a peek in the town of Liège and an interview with Maîtresse Xawana (in the French language with subtitles). A must have collector’s item as this stunning lady will make you lick her boots and obey her wishes!
