Kay is a service bottom that enjoys serving others. She is into light bondage and mostly submission, but today she is paired with Orlando, who is into heavy bondage, and is a sadistic fuck who takes pleasure in watching others suffer. The authenticity of her reactions as she is made to endure this brutal punishment is priceless. There is a real fear that fills her going into these devices that can be seen and it's amazing to watch. We get to see this little service whore turn into a pain whore right before our eyes.
