

Big Titty Sybian Riding Slut Wears Gas Mask Victims: Juliette March & Ruby Reaper Approx. 104 mins 2011 Kink.com

€ 18,95

Boobs (Ruby Reaper) is chained to the wall and thrown onto a sybian. Her feet off the ground as gravity does its work smashing that hungry cunt onto the relentless monster of a vibrator. Her breasts are wrapped with dozens of black rubber bands, then bound together until they are firm bulbs that can feel every sting of a whip.

We put the gas mask on her and take away the privilege of breathing. She convulses with every uncontrollable orgasm only to inhale as she is flushed from pussy to head with constant cumming. Lots of cumming and lots of breath play. Boobs has the perfect body to accentuate and the skin to show the abuse. Not to mention the sounds that little mouth makes when she is deprived breath and relief of overstimulation.
