"I'm just not used to not being able to move around."

Little Device Bondage rookie Annika has no idea what she's getting into. She's chained to the ceiling with her feet in the air. She gets an electrified plug in her pussy, and we put the vibrator on her until she can't take it anymore.

"When's the last time you were fucked in the ass?"

Next Annika gets her hands and feet bound to the floor while she's upside down in a piledriver, and her ass gets fucked hard by a fucking machine.

"Wanna know what 100% feels like?"

Finally, Annika gets chained to the floor by her neck, gagged, and covered in clothespins. She gets an intense ride on the sybian, and gets brought to the edge over and over while drooling all over the floor.

Then she gets to learn what a zipper feels like.
