Welcome Cassandra to the playing board. Today she endures some incredibly tough bondage predicaments and takes the pain like a champ. In scene one, Cassandra is bent over, standing, cuffed in metal. Her cattle prod cherry is taken from her and she is mercilessly tormented with corporal. Flipping her into an arch position, she gets finished off with some very intense orgasms. Second, in ballet boots and a leather corset, she is strapped into a vintage rescue litter. Wax is poured all over her tits and puffy nipples. An inflatable dildo is slid into her tender cunt and she is hoisted into an upright position. Finally Cassandra is folded on a perch wearing half latex, half hosiery. She is bound with leather straps all down her legs and hoisted into the air. This slut cums so much even Claire is impressed. Finishing her off with a pussy hook bound to her feet, she is left alone to suffer.
