Welcome hot and adorable Ashli Orion to Device Bondage. We have something special for this slut. Lots of wanton cruelty and pain, our specialty. First Ashli is installed standing in a chain predicament. Her clothes are peeled off. The chain attached to her metal wrist shackles pull her into an arms-over-head position, then later on into a standing forward bend. Claire takes advantage of the accessibility of Ashli's amazing ass with a thorough paddling. Second she is bound sitting on wooden stocks, a metal waist belt, metal shackles on her wrists, and stocks on her forearms. Her head is installed in a one way reflected wood head box that is illuminated from the inside. We can see her, but she cannot see all of the pleasure Claire has in store for her with the tazapper, flip cat, and a hard dildo rammed up her ass. Finally Ashli is placed in a folded ball type position. Tormented with clamps on her nipples and cunt, her hands are taped closed to ensure she can't alleviate her pain. Laid on her back, we get to see Ashli build to an incredible amount of orgasms while being double penetrated and vibrated.
