Jodi starts her day on her back in a very strict steel device that allows no movement. She is spread wide and available for Orlando to abuse her cunt. There are others parts that he has access to, but for now this will be his starting point. Next she is in a grueling hogtie that puts stress on her entire body. She is pushed to her breaking point with extreme torment, then followed by more abuse to her already sensitive cunt. The final scene has her on the floor with her pussy exposed more than ever, and after he attacks the rest of her flesh, he's back to finish off her swollen pussy.
