Marie loves to suffer in grueling bondage. Her all natural body begs to be dominated, and her mind is willing to go further than normal to endure the suffering that is store for her. There is no mercy taken on her by Orlando. That cute innocent look she has, does nothing but inspire him to torment her and then taking an orgasm from her as a trophy. She is bent over in a device that is so strict that during her orgasms her feet raise off the floor! Marie is then locked down atop a sybian, and although she is having orgasms, she is suffering more than ever. Her pale body is covered with painful pegs, from her tits, all the way to her cunt.
