Dylan returns and looks hotter than ever. Orlando jumps right in and starts the day with Dylan's legs spreads wide and then starts to make this tall slut scream. She is at the edge and then a squirting orgasm is ripped from her pussy. Next she is in a doggy position, suspended by leather and chains. Her body falls under the sadistic cane and is clamped in all the perfect places. Again she is made to cum, but then released and made to remove all of the clamps herself. Finally, she is perched up with her legs held apart by steel pipes and Omega is shoved into her hungry cunt. She is fucked into oblivion and is too helpless to stop the process.
