Penny is a super hot MILF that is as bratty as they come. She is first taken the edge of her darkest place by mummifying her. This type of deprivation is hard for her, but she agreed to do it, and it's clear that she likes being pushed to the edge. Next she chained into place in a back bend and her entire body is caned. The pain becomes almost unbearable, yet she pushed through to prove she won't be beaten that easily. We finish the day by mounting her atop a sybian, and watch as this bratty bitch have more orgasms ripped from her cunt than she can handle.
