Tyler Alexander is still in his trial period at Divine Bitches. He's yet to prove himself worthy of full femdom training to Maitresse and the Bitches. Mistress DiMarco works her magic on this newbie seducing him with her perfect body then denying him any pleasure with it. The agony of being so close to such exquisite beauty is only compounded with her wicked humiliation and evil torture. Tyler is whipped and CBT'd and made to worship ass followed by an evil strap-on butt fucking. Tyler honestly thinks he has a chance with Gia and she plays him to the very end, taking away any hope he had of actually having sex with her! Instead she shuts him up with a dildo gag, rides his face to orgasm and squirts all over his pathetic face leaving his cock smashed in a cock smasher and covered in her delectable juices! Does Tyler deserve full training with the Bitches?
