

The Domina Files volume 63 Baroness Bijou Augsburg - Germany Running Time: 1 hr 20 mins

€ 9,95

After the famous EroFame fair the Domina Files film crew went down South into the outskirts of the Dark Forest to visit none other than Baroness Bijou who had invited us for an extended stay in one of the places she uses as a dungeon for her sessions. An old train depot with lots of underground rooms, a complete greenhouse and a stable offered huge possibilities for the amazing shoot days. We shot so much material that we decided to create a double release to do justice to this amazing and versatile dominatrix who reigns in leather, PVC and latex but also as the riding mistress with a huge following. Be prepared to travel with her across Europe and witness some of the most amazing stuff you have ever seen on DVD! In this volume you will see rubber bondage, strap-on play, boot worship, corporal punishment, CBT and more unbelievable material. Complete with interview segments and behind the scenes footage of the roman city of Augsburg and its amazing history!
