Femdom is a woman's goddess given right. Used to exploit the testosterone driven madness that is a man's existence. Lance and I are friends, but let's face it, he's still a man and he needs to be on his knees thanking me for existing. I remind him of how his sick and perverted male mind is in the gutter. I show him how simple pleasures turn twisted in the male thought process and I use it against him for his own good.
