Her head is in a wooden stock, her wrist are restrained and she is mounted on a spinning platform. She is toyed, flogged, and made to endure breath control at the hands of her sadistic captor. The rewarding orgasm has her eyes rolled back in her head as she spins out of control in ecstasy. Next Skin is face down, legs spread and made helpless with leather straps. She suffers through a brutal flogging and bastinado with hopes of a final orgasm. Her pussy is stuffed with a massive dildo, and her slutty ass is fingered. Now that her pussy has given all of its juices, we fuck Skin's throat until she has swallowed every drop of her whore juices.
