Brand new 19 year old alt girl gets her first taste of brutal domination. She starts with her head and hands in deprivation globes. Her clothes are stripped away and she is quickly turned a bright red from heavy flogging. When the time comes to reward this newbie she is a bit shy with the orgasms, but that will soon change too. The torment is escalated to an extreme level to ensure total destruction. The room is filled with begging screams and in the final scene she is in a doggy position with the sybian mounted between her legs. The only purpose is to make her orgasm more than she ever has before and then keep going until she can't take any more.
