

Whipping The Webmaster

Whipping The Webmaster - Mistress Pandora's website is a mess because of the incompetence of her web designer. It's time for a serious ass whipping as Mistress Pandora, wearing a sleeveless black catsuit and leather waist cincher, strings Johnny up by his ankles and thrashes him with her crop, flogger, strap, and buggy whip. The cruel Goddess then puts clothespins all over his body and zaps him with an extremely painful electric paddle. Mistress Pandora then gags her slave because he can't stop screaming and beats him with a quirt and strap.
