

The Battered Husband

The Battered Husband - Mistress Persephone comes home to find her slave/husband, played by Bart, in the kitchen with an apron on trying to whip her up a meal. She immediately begins verbally abusing him and chastising him for his poor culinary skills before taking a seat in a straight back chair and making him bend over her lap for some much needed discipline. She starts off with her hand and paddle over his jeans before taking them down and blistering Bart's ass with a belt, strap, and a few paddles. This video is kind of a reverse spouse abuse scenario with a retro flavor to it. Other action in cludes lots of hard face slapping and smothering. Mistress Persephone has proclaimed this one of her favorite videos to date.
