

Bear Market Beatings

Bear Market Beatings - Taylor St. Claire's debut video for Syren Productions has her playing the part of a rich and bitchy woman whose stockbroker has lost a lot of her fortune in the stock market. If this bumbling idiot wants to keep investing her millions he had better take the beating she believes he deserves. Taylor starts out by giving Steve a lengthy dose of the belt as he is draped over her knee. She also blisters his ass with paddles and crops. After hearing enough of his back talk, she puts Steve on the floor and smothers him with her huge breasts and beautiful bottom. Taylor then puts Steve in a ridiculous position only a yoga enthusiast could hold, with his legs bent behind his head and his ass protruding in the air, she wails on him with a leather paddle. Also includes a hard caning, cock slapping, and forced heel worship.
