Rarely do we get pillow princesses on Device, but when we do, we take full advantage. Sofia Lauryn is beautiful and she knows it. We place her in folded leather positions, metal spread eagles, uncomfortable predicament bondage. She does her best to endure her ordeals with her head high, but you can see as the shoot progresses, she begins to humble. Her concession is to offer her sweet asshole to us for the first time. Yes, thats right, she offered us her ass deflowering on camera. We spread her nice thighs and calves wide with a metal spreader bar configuration and prop her hips up, displaying her ass even more with wood. He butt sticks out, ripe and juicy... ready for the taking. Once we've primed her butthole a nice thick dildo is slid into her ass. She relishes the pleasure of her newly fucked innocent hole. Finally, exhausted, she is posed kneeling again to display her firm beautiful breasts. She is pushed, challenged, penetrated, vibrated, her body fights to endure unforgiving device. It brings us pleasure to see the pillow princess bitch suffer.
