

Under Control. Helpless And Vulnerable Victim: Krissie Dee
Approx. 94 mins 2012 Kink.com

€ 18,95

After overwhelming member request, Kink Live model Krissie Dee does her first ever adult bdsm shoot with Device Bondage. To add to firsts, Device Bondage also welcomes Sebastian Keys a tough 3 black belt sadist Dom. Sounds like a perfect storm. We start with Krissie in a back breaking standing arch where she is installed in wooden stocks around her neck, wrists, and ankles and bent backwards. Sebastian takes his time, pacing her, testing her, wearing down her thigh strength by using nasty stingy floggers. He brings her down into a kneeling position and adds ankle stocks to finish the position and continue the torment. In scene two, petite Krissie is made to submit to an extremely uncomfortable metal hogtie. Her elbows are wrapped around a metal pole and secured with metal wrist shackles and her legs are bent in such a position that pushes her nice ass out, making it perfect for an ass hook. In the final position, Krissie is bent in what Claire has titled a diamond pose. Her legs are strapped to a custom fit metal apparatus with leather. Her torso and wrists are encased in taut leather and pulled into the frame. She can barely move, think, or breathe as Sebastian works her over with skilled coporal and pleasure at his whim.
