Beautiful pale Annika gets completely sexually pummeled with pain and pleasure by Jack Hammer. In scene one, she is installed in a latex corset, garter, stockings, bra, and gloves. Made to stand on metal poles, chain is tight around her thighs and affixed to a pipe a-frame. Jack torments her with a serious amount of corporal with tongue and nipple torment. In scene two, continuing the theme of suspension chain bondage, Annika is suspended in a chain only ball tie and a black latex box tie arm binder. Jack turns her into a pinata of pain and gets this bitch to squirt. In scene three, the former ballerina is placed with arms strictly back and on her tip toes with hard steel rammed into her cunt. Helpless to resist, Jack layers clothespins all over her body, only to remove them in the most uncomfortable fashion he can think of and all she can do is cum again and again from the pain and the pleasure.
