Hot delicious Tricia Oaks returns to Device with an unreal body and incredible beauty to submit live. In scene one, her flexibility is tested by bending her over and installing her in the metal neck and wrist restraints. Her shoes are screwed into the floor. This bitch can't go anywhere. A cunt hook is added to elevate her and she is tormented with canes. Not much after that, the bitch is hung upside down by her ankles in the same stocks and brought repeatedly to orgasm. Second, Tricia is folded in leather and given a breath bondage predicament. This slut loves to be tormented and we challenge her with unforgiving bastinado. Finally she is installed in a standing legs spread predicament in metal bondage with a very strict strappado. Claire taunts her to yield and lay down like the bitch she is. This rallies something primal in Tricia and she refuses to yield. As her reward, she is laid down on a cruel mattress of springs only and repeatedly milked for her orgasms.
