

Little Brunette is Made to Cum in Stressful Bondage Victim:
Sensi Pearl Approx. 60 mins 2013 Kink.com

Sensi is known for her flexibility. Time to put it to the test.

First, her arms and ankles are cuffed. Her legs are pulled spread, her arms pulled back and her hair taut, to maintain that upright posture. Nothing like a tight bodied little woman squirming around in tough bondage, whether it's from a hard caning or a vibe on the clit.

Next, she is pinned up against the wall, her legs folded back, arms down and neck fastened. X marks the spot. Her pussy is swelling and inviting so I get my hands dirty and make her squirt more times than I can count and smear it all over her face. The nipple clamps to her toes assure that when she cums she can only be overwhelmed.
