Asphyxia gets tied to a ladder and has her thong stretched. She gets her ass paddled and her nipples tortured with weights. She gets her feet tickled and caned then she is made to smell and taste her panties before they get shoved in her mouth behind her leather gag. Then Claire gets above Asphyxia on the ladder and pummels her pussy with a dildo. She gets kneed and punched and Claire stomps her boot on Asphyxia's helpless ass. Then she gets a ball taped inside her mouth in extreme chain and pipe bondage with her hands confined in an single arm binder. She gets whipped and played with then made to choose to have her pussy dunked in ice or impaled by a spiked board. She gets troubling nipple clamps banded to chain and pussy vibrated until she can't take anymore. Finally Asphyxia is strapped to intricate piping in high heel and a gas mask as Claire applies an intense zipper to her tits and abdomen. She has her cunt pleased and and her breath taken away by blocking the intake of her mask with her tits. As she struggles she is punched and choked, fucked with a dildo and slapped around. She left as vulnerable as she begun, hard-tied to pipes.
