Skin is back at Device Bondage and her hot body begs for punishment. Skin starts with being chained on the floor, with her face pulled up by her gag. The fear of what is to come is looming over her. Nipple punishment, along with non-stop pain. She struggles to hold on, and when it seems hopeless, Orlando rips her first orgasm from her cunt. Next, Skin is belted in a strappado partial suspension, toyed with and then lifted onto a platform. Her amazing ass is exposed for all to see, and Orlando takes advantage of the situation by fucking her cunt hard and fast. In the end she is left as a sloppy mess with her cunt worn out and dripping.
