Nerine is back and starts her day shackled with steel to the floor and helpless. Orlando enters and starts to toy with this slut. Her body soon turns red from the intense flogging that she is made to suffer through. Her cunt is filled and the first orgasm of the day is ripped from her pussy. Then comes the electrical torment, with pads on her pussy mound, and an electrified tip on the vibe that send this slut into screaming orgasms. Nerine's body is now stretched out in a brutal back bend. Clamps are placed all over her body and then covered in hot wax. Again her pussy is attacked and multiple orgasms are ripped from her against her will.
