Ingrid gets her ass handed to her today, we start with her kneeling and her tits out. She's blindfolded, put into the device and instantly gets an array of torment that continues throughout the entire scene. Next we find out where her breaking point is, she has proven to be tough, so we push, and push. We threw everything we had at her and she fucking took it, so she'll now get rewarded for it, with her pussy and ass getting fucked and then made to not orgasm for over ten minutes. Our final scene has her perched atop the sybian, and chained to the wall. She gives every ounce of what she has left, and by the end Ingrid has been utterly destroyed!
