For Felony's birthday I wanted to do something special so I rented her a motorcycle for the day and got her a tattooed bad boy to turn into a her own slut boy! Felony blazes into the Armory for a day filled with female domination by clamping Ricky's balls, over sized clothes pins on his tattooed flesh and then whipping them off with an evil dragon tail whip! He's tied up, bent over her motorcycle and fucked like a little bitch in the ass. When Felony bores of him she has enough of the CFNM and ties him down with a box over his head so he can't see her naked body. This doesn't stop Ricky from having a raging hard on knowing just knowing he is in the presence of a goddess. Felony rides his cock to orgasm and uses the little box on his head as a toilet, squirting her cum through the little whole and leaving him begging with a dick so hard it could break ice.
