Trent Diesel thinks he's man enough to be the plaything of Mistress Bobbi Starr. She takes Trent's declaration as a challenge to break him. He learns that Bobbi's beaming smile isn't sweet, it's a sadistic grin in anticipation of what's to come. With cold, heat and electricity, Bobbi makes sure that Trent knows his place as a plaything. She puts his feet in water buckets, fills them with ice, makes him dance with the application of voltage and then pours hot wax all over his chest. But Bobbi isn't done showing him what a true Divine Bitch she really is. Bent over and his cock and balls restrained and an electric urethral probe inserted, Bobbi practically rips Trent a new asshole with her metal strap-on before telling him to clean her butt. But does Trent deserve a reward after his ordeal? In her final act of torture, Bobbi denies his release.
