When Aiden Starr wants to get fucked you either agree to play her way or you take a hike! This tiny temptress has zero tolerance for those who don't play by her rules. After a hot and steamy date with a new fling, Aiden is ready and willing to get down. Little does this new beau know Aiden has her slave cuck waiting in a cage in the basement begging to be used and abused. She makes unexpected man stand in the back while she shows him what kind of kinky sex she's really into. She verbally humiliates her slave and beats him into submission. In chastity, he knows he has no chance of ever feeling the heavenly pleasure of her dripping wet pussy. While putting her basement slave in his place by aggressively fucking his ass, the hypnotic smell of her body fills the air of the basement which puts both these men under Aiden's power. She make her bitch boy prepare the cock of her date so that it's nice and hard and ready to please her just the way she wants it. Finally, she ties her cuck down just right so that she can straddle his face and give him a hot and sweaty front row seat this memorable performance of how to properly fuck a woman.
