The Domina Files volume 59 Mistress Nicolette Los Angeles CA - USA Running Time: 1 hr 20 mins

€ 9,95

When we last saw Mistress Nicolette she had a slave boy on his knees, worshipping her boots. On our most recent visit, we found her in a new location with new possibilities and a desire to show us some of her latest kinky ideas. Her willing submissive was definitely up for the test. First, there was the inverted suspension tickle torment followed by a hard round of CBT and nipple torture on the cross. A bit of latex confinement in her vac-bed was next. It's hard to take a breath when the mistress is sitting on your latex covered face. Last but certainly not least, Mistress Nicolette is ready for the fire. Her submissive wasn't nearly as ready as the flames took away the hairs that his razor forgot. Mistress Nicolette, one of LA's best, is back in another round of the Domina Files! Complete with an interview and background information on the studio and the city of Los Angeles.
