

The Domina Files volume 86 Herrin Ilsa Herne - Germany
Running Time: 62 mins

€ 9,95

Originally shot on location in the dungeon of Herrin Ilsa in Gelsenkirchen in a stunning multi story BDSM house with different theme rooms, we are witness to treatments by both Herrin Ilsa and Herrin Comtessa – first a stern bondage with lots of rope, clamps and riding crops; then a slave girl gets tied up to a revolving cross with a severe whipping and extreme bondage and finally the male slave is milked dry to the last drop of semen coming from his toes with a Venus 2000 machine in the medical room. Since we shot there, both mistresses relocated to an even better dungeon with more possibilities in the industrial town of Herne, just minutes away from the A42 and A43 motorway. Better equipped and with much more BDSM-fun. Complete with a sneak peak of the original city where the first studio was located and an interview with Herrin Ilsa.
