We begin with Cherry standing with her arms pulled above her head. She is flogged and then gets her nipples suctioned, but with wooden spikes in the tubes for added suffering. Next she is face down with her arms in a strappado. An ass hook is tied into her and after more grueling torment she is fucked and vibed to screaming orgasms. Finally she is put in a brutal back bending position with her body helplessly exposed. Again the assault on her body begins, and she is now at her breaking point. A zipper is applied and then her pussy vibed again. At the exact moment the zipper is ripped from her body she is destroyed with over powering orgasms and pain.
