Today is going to be Mia's reckoning, and it will come in the form of extreme suffering. First we have her bent over so that her slut holes can be utilized to their potential. Her nipples get the nasty treatment before she's made to cum. Next we put her body on display, front side up and her limbs shackled to the table. Suction is used to torment and make her bits extremely sensitive. Her pussy is stuffed full of a massive dildo while a vibe presses hard against her clit, to ensure she will orgasm as long as we see fit. In the final scene we have her blindfolded and folded in half. This time she can't see it coming, so the anticipation is her worst enemy.
