

Her Futuristic Medical Fetish Dungeon Starring: Lea Lexis & Rick Fantana Approx: 69 mins 2017 Kink.com

€ 18,95

Lea Lexis turns Rick Fantana into her little bitch in her futuristic medical fetish dungeon! Rick screams for corporal punishment, intense tit torment, and extreme cock and ball suffering. Next his asshole needs some work! She rams a metal rod straight up his ass. This gets his sad cock rock hard and he is ready for some deep strap-on pegging before he is allowed to release his load all over his own face. Pathetic.
