Veruca needs no introduction. She has made her name in the porn world as well as in the BDSM world. She is good at whatever it is that she does, especially suffering in bondage. She is here for one reason, so I am not going to spend time warming her up, nor am I going to let her leave until she has been tormented to my liking. She is capable of a great deal of suffering and I plan to get in as much as possible before her release.
