Casey is a veteran pain slut that can take more than can be dished out because she's such a busy girl. She has a career and can't get the full ass whooping that she wants because marks will keep her from making money. The way we combat that is to push her in other ways like bastinado, breath control, and powerful orgasm overload and denial. She is subjected to all of this while in grueling bondage, but the most impressive is when this slut has a pain-gasm from her feet being whipped.
