It has been over a year since the divine beauty and stunning body of Lily LaBeau has been worked over and tormented at the hands of our sinister devices. No matter if her body is bent forward, backwards, or spread wide open, Lily surrenders completely to each brutal moment. Each time a different part of her body is tormented she cums harder and harder. Nipple torture, foot torture, and ass spanking only warms her up until she climaxes and squirts all over The Popes giant hands while being choked out. She is a sadists dream!
