Helena is not usually on the receiving end of the punishment. She has been bad ass Domme, but the females are made to submit here. Helena is curious about what she can handle as a bottom, what kind of pain she can endure, and how she will feel when she is trapped in strict bondage restraints. The first thing we discover is that Helena is far from submissive, but rather a masochist. She sexualizes the pain and finds a way to push the pain into her pussy, which is soaking wet.
