Cherie is locked into cold steel and she's not going anywhere. Her ass is spanked and flogged and her nipples are brutalized. Next Cherie is in a brutal back bend. Her legs spread and before I can start tormenting her I see the bondage is taking it's toll on her fragile body. The punishment is swift and and effective. We start to see signs of her breaking, so we pull bak to make sure this slut makes it through the rest of the day. In the final scene she is locked into the scavenger's daughter. More pain comes, and we see Cherie getting close again. This time the game changes. I toy with her, fuck her mind as hard as I can to totally destroy this slut.
